**PRELIMINARY AMENDMENT**

Prior to examination, please amend the application as follows:

In the claims:

Amend claims 3 and 4 as follows:

3. (Amended) A multivariate statistical process monitor which has been designed/configured by the method of claim 1 and which is so arranged as to identify abnormal process behavior by analyzing the residuals of the response variables.

4. (Amended) A method of monitoring a process which comprises configuring a multivariate statistical process monitor by the method of claim 1, and identifying abnormal process behavior, at least in part, by analyzing the residuals of the response variables.

Add claims 5 and 6 as follows:

--5. A multivariate statistical process monitor which has been designed/configured by the method of claim 2 and which is so arranged as to identify abnormal process behavior by analyzing the residuals of the response variables.

6. A method of monitoring a process which comprises configuring a multivariate statistical process monitor by the method of claim 2, and identifying abnormal process behavior, at least in part, by analyzing the residuals of the response variables.--
